## Catheterization

- A. The State Department of Health has established the following rules:
  - 1. The student's medical file shall contain a written request from the parent(s) or guardian for the clean, intermittent catheterization of the student.
  - 2. The student's medical file shall contain written permission from the parent(s) or guardian for the performance of the clean, intermittent catheterization procedure by the nonlicensed school employee.
  - 3. The student's medical file shall contain a current written order for clean, intermittent catheterization from the student's physician and shall include written instruction for the procedure. The order shall be reviewed and/or revised each school year.
  - 4. The service shall be offered to all disabled students and may be offered to the nondisabled students, at the discretion of the school board.
  - 5. A licensed registered nurse shall develop instructions specific for the needs of the student. These shall be made available to the nonlicensed school employee and shall be updated each school year.
  - 6. The supervision of the self-catheterizing student shall be based on the needs of the student and the skill of the nonlicensed school employee.
  - 7. A licensed registered nurse, designated by the school board, shall be responsible for the training of the nonlicensed school employees who are assigned to perform clean, intermittent catheterization of the students.
  - 8. The training of the nonlicensed school employee shall include but not be limited to:
    - a. An initial inservice training, of a length to be determined by the licensed registered nurse.
    - b. An update of the instructions and a review of the procedure each school year.
    - c. Anatomy, physiology and pathophysiology of the urinary system including common anomalies for the age group served by the employee.
    - d. Techniques common to the urinary catheterization procedure.
    - e. Identification and care of the required equipment.
    - f. Common signs and symptoms of infection and recommended procedures to prevent the development of infections.
    - g. Identification of the psychosocial needs of the parent/guardian and the students with emphasis on the needs for privacy and confidentiality.
    - h. Documentation requirements.
    - i. Communication skills including the requirements for reporting to the registered nurse or the physician.
    - j. Medications commonly prescribed for the clean, intermittent catheterization patient and their side effects.
    - k. Contraindications for clean, intermittent catheterization and the procedure to be followed if the nonlicensed school employee is unable to catheterize the student.
    - 1. Training in catheterization specific to the student's needs.
    - m. Developmental growth patterns of the age group served by the employee.
    - n. Utilization of a teaching model to demonstrate catheterization techniques with return demonstration performed by the nonlicensed school employee, if a model is available.

- o. The training of the nonlicensed school employee shall be documented in the employee's permanent file.
- B. The district will record the names of individuals receiving the catheterization training and the training dates. These records shall be kept available for audits.

Adoption Date:July 2005 Starbuck School District #35
